525-764 Kit, REX Whisker Exhaust
525-767 Rebuild Kit, 455 Balanced Regulator

We will be shipping the exhaust valves P/N 510-776 in the color black as soon as our stock of the original clear valve runs out.

The material will remain the same, but the durometer has changed to decrease exhaust resistance, lowering the overall work of breathing. The black color designates the durometer change. Any old stock of the clear valves can be used without issue.

**OLD
EXHAUST VALVE
P/N 510-776**

**NEW
EXHAUST VALVE
P/N 510-776**

The previous color was clear. There will be no change in part numbers and no change in price. There will be no exchanges offered.

No change to associated procedures for maintenance of the valve are necessary

Please contact your authorized KMDSI dealer or e-mail sales@kirbymorgan.com for more information.
