Bulletin #10 of 2014. September 8, 2014

Change to Product 560-517 Stainless Steel Shells now with "Auxiliary Port".

Helmets Affected: KM 77 Helmets, KM 37SS Helmets, KM 97 Helmets: part numbers 500-090, 500-091, 500-100, 500-101, 500-700, 500-701.

Kirby Morgan is happy to announce the addition of an "auxiliary port" to the stainless steel shells. The auxiliary port will allow for future add-ons and modifications to the stainless steel helmets. It is located on the port side of the shell as shown below.

The former stainless steel shell and the current shell with added auxiliary port.

The auxiliary port plug component part numbers are:

550-097 Large Plug

510-029 O-ring (for Large Plug)

550-043 Plug (same part as used to plug MWP hole on SL17B, 18/28s)

510-481 O-ring (for 550-043 plug)

320-026 Mount Nut (Same as the communications mount nut)

There is no price change for the 560-517 stainless steel shell at this time.

Please contact your local KMDSI dealer or e-mail sales@kirbymorgan.com for more information.
