**Bulletin #14 of 2014. December 29, 2014  
(Addendum to Bulletin #3 of 2014)**

## **Change to Product**

**Hard Copy Manuals No Longer Available.**

**USB Flash Drive Manuals now ship with, and are available on our website for All Product Manuals (Modular Format).**

**Additional Products Affected:** KMACS-5 and EXO® BR.

The USB flash drive contains a Modular formatted Manual for all helmets, Band Masks®, EXO® BR and KMACS-5.

REMEMBER! The modular manuals feature:

- The most up to date information and photographs.
- Easy “updatability” due to the electronic, modular format.
- It is downloadable and printable from our website, free of charge.
- A format divided into sections containing information in common with other models. For example, the Quad Valve & Tri Valve® Exhaust section or “module” shares the same content among all current Kirby Morgan® helmets.

The modular format, USB flash drive manuals are available on our website, for all helmets, Band Masks®, EXO® BR and KMACS-5 at:

<http://www.kirbymorgan.com/support/manuals-exploded-views>

For a limited time, the older, non-modular manuals are still electronically available from our website. To find them, go to “Support” and simply select “Pre April 2014”, upper right. These earlier style manuals are for the purpose of providing “match up” references (Location number, page numbers) with what many customers and dealers may still have on hand, **but for the most up to date information, see the current Modular Manuals.**

*Please contact your local KMDSI dealer or e-mail KMDSI at sales@kirbymorgan.com for more information.*

Thank you,  
Kirby Morgan Dive Systems International
