Bulletin #6 of 2010. October 6, 2010

Change To Product Bulletin

Length of Part Number 530-024, Screw, Increased

Assemblies and Kits Affected: 505-090, 505-093, 505-094, 505-095, 505-097, 505-100, 505-101, 505-102, 505-104, 505-118, 505-119, 505-120, 505-744, 505-745, 505-746, 505-747, 525-216, 525-230, 525-341, 525-347, 525-349, 525-372 and 525-379.

Kirby Morgan has slightly increased the length of part number 530-024, neck ring assembly screw, to better accommodate the various dry suit neck dams (latex and neoprene) that may have variations in thickness. This will help provide maximum thread engagement.

The length of the screw was increased from $\frac{1}{2}$ " to $\frac{9}{16}$ ".

No change in price.

Please contact your local KMDSI dealer or e-mail KMDSI at sales@kirbymorgan.com for more information.
